SUMMARY

As a Java developer, I am eager to apply my foundational knowledge and passion for coding to contribute effectively to projects. I bring a strong understanding of Java programming concepts, including object-oriented principles and data structures. With a keen interest in developing scalable and efficient applications, I am motivated to learn and adapt to new technologies and methodologies in the dynamic field of software development.

EXPERIENCE

CODETECH IT SOLUTION JAVA PROGRAMING INTERSHIP

April 2024 - May 2024

PROJECTS

ONLINE FOOD APP

[www.github.com/akshaymhaske2027/online-food-app.git](https://github.com/akshaymhaske2027/online-food-app.git) • July 2024 - July 2024

- The Online Food App Project with Spring Boot, React, and MySQL is an innovative web application that enables users to explore and shop for a wide range of products.
- Its primary user roles: are Owner, Admin and Customer, each with distinct features and responsibilities.
- The project leverages JWT (JSON Web Token) authentication and authorization for secure access control.

EMPLOYEE MANAGEMENT SYSTEM

github.com/akshaymhaske2027/full-stack-ems • June 2024 - June 2024

- Developed an EMS with Java Spring Boot backend and React frontend to streamline HR operations and enhance workforce management.

Portfolio Website

akshay-mhaske-potfolio.netlify.app/ • May 2024 - May 2024

- Using HTML, CSS, JavaScript, and React, I've built a modern, dynamic, and responsive site designed for seamless user experience across all devices.
- Deployed on Netlify, it benefits from continuous deployment and excellent performance.

EDUCATION

Bachelor of Computer Application

Savitribai Phule Pune University • 2023

HSC

Savitribai Phule Pune University • 2020

SSC

Savitribai Phule Pune University • 2018

CERTIFICATIONS

Full Stack Java Developer

SKILLS

FrontEnd: Html, CSS, Java Script, React

BackEnd: Java, Spring Boot

Database: MySQL, SQL

VC: GIT
