OBJECTIVE

As a Java full stack developer, I am eager to apply my foundational knowledge and passion for coding to contribute effectively to projects. I bring a strong understanding of Java programming concepts, including object-oriented principles and data structures. With a keen interest in developing scalable and efficient applications, I am motivated to learn and adapt to new technologies and methodologies in the dynamic field of software development.

PROJECTS

eCommerce Website App

github.com/akshaymhaske2027/project-ecommerce-2.0.git · July 2024 – July 2024

· **Backend Development:**
  · Designed and implemented RESTful APIs using Spring Boot.
  · Integrated JWT for secure user authentication and authorization.
  · Utilized MySQL for database management and optimized queries for performance.
· **Frontend Development:**
  · Developed interactive and responsive user interfaces using React, HTML, Bootstrap, and CSS.
  · Ensured cross-browser compatibility and mobile responsiveness.
· **Image Storage:**
  · Integrated AWS S3 for scalable and secure image storage.

Expense Tracker Web

github.com/akshaymhaske2027/project-e.git · June 2024 – June 2024

· Developed and implemented RESTful APIs using Spring Boot.
· Designed and managed the database schema in MySQL for efficient data storage and retrieval.

EMPLOYEE MANAGEMENT SYSTEM

github.com/akshaymhaske2027/full-stack-ems · June 2024 – June 2024

· Developed an EMS with Java Spring Boot backend and React frontend to streamline HR operations and enhance workforce management.

Portfolio Website

github.com/akshaymhaske2027/akshay-portfolio.git · May 2024 – May 2024

· Using HTML, CSS, JavaScript, and React, I've built a modern, dynamic, and responsive site designed for seamless user experience across all devices. Deployed on Netlify, it benefits from continuous deployment and excellent performance.
· Implemented a contact form that sends submissions directly to email.

EDUCATION

Bachelor of Computer Application

Savitribai Phule Pune University · 2023

SKILLS

· **Languages:** Java, JavaScript
· **Backend Technologies:** Spring Boot, RESTful APIs
· **Database:** MySQL
· **Frontend Technologies:** React, HTML, Bootstrap, CSS, JavaScript
· **Cloud Services:** AWS S3 (for other projects)
· **Tools & Platforms:** Git, GitHub, Netlify

COURSEWORK

Full Stack Java Developer
